STATUS OF PAST NOTED VIOLATIONS: NA

OBSERVED VIOLATIONS

1. NA

The item(s) listed above were observed by Section staff and require action on behalf of the facility in order to come into or maintain compliance with the Statutes, Rules, and/or other regulatory requirements applicable to this facility. Be advised that pursuant to N.C.G.S. 130A-22, an administrative penalty of up to \$15,000 per day may be assessed for each violation of the Solid Waste Laws, Regulations, Conditions of a Permit, or Order under Article 9 of Chapter 130A of the N.C. General Statutes. Further, the facility and/or all responsible parties may be subject to enforcement actions including penalties, injunction from operation of a solid waste management facility or a solid waste collection service and any such further relief as may be necessary to achieve compliance with the North Carolina Solid Waste Management Act and Rules.

ADDITIONAL COMMENTS

1. The permit for this facility expires in September of this year. Recommend that you follow up with the permitting branch on the renewal application.
2. A sign shall be posted at the facility entrance showing the contact name and number in case of an emergency and the permit number.
3. The waste type observed was correct at the time of this inspection.
4. The property lines and edge of waste should be **permanently marked and visible** to ensure that the buffer of 100' is maintained.
5. Water was observed ponding over the waste in several areas where ruts had been formed by equipment. Repair all areas where water may pond on top of waste appropriately.
6. There was some eroding observed on the side slopes during the inspection. Repair eroded areas as they are observed.
7. Provisions for ground cover sufficient to restrain erosion must be accomplished within 30 working days or 120 calendar days upon completion of any phase of landfill development.
8. 120 calendar days after completion of any phase of disposal operations, or upon revocation of a permit, the disposal area shall be covered with **a minimum of one foot** of suitable soil cover sloped to allow surface water runoff in a controlled manner.
9. It is recommended that the perimeter area of the landfill is maintained such that emergency and fire-fighting equipment would be able to access any part of the landfill if necessary.
10. Corrective measures are necessary as a result of the findings of the inspection and should be completed within 30 days receipt of this inspection report.
11. Digital photos were taken during the audit.

Please contact me if you have any questions or concerns regarding this inspection report.
